VOTERS, ATTENTION.

AT THE coming election a constitutional amendment is to be voted upon which if carried will requre that thereafter all persons must be full citizens before they can exercise the elective franchise. The amended section will also so clearly state the qualifications of electors that everybody can understand them, and there will be no occasion for the annoying cases which casion for the annoying cases which mediately after they got control as have frequently occurred heretofore above stated all this became changed. where persons have supposed themselves to be qualified electors, but have afterwards found out that they had no right whatever to vote. The digments suspended operations; labor-ors became paralyzed; laborers were idle; money could not be obtained for any amount of security; factories closfollowing is a copy of the proposed section of the state constitution as it want and starvation. will read after the amendment is THE CAUSE OF DISTRESS TARIFF LEGIS adopted:

day, that has not heretofore taken see how far the democratic party place. Every intelligent and fair minded voter will cast the ballot that, in his estimation, is for the greatest good for the greatest number. The names of the men who have pledged themselves to labor in the interest of the people, can be found in the first column on this page. These men are all tried and true, and you will make all tried and true, and you will make laborers enough right here at home to no mistake in depositing a ballot in do all of the work necessary to pro-their favor. They are the people's duce all of the goods that our people choice, and their majority will surprise need to use; that our farmers are raising enough of their products to put even themselves when the votes are into these goods; that we have timber counted on the sixth of this month.

A DEMOCRATIC vote is one in favor of the party that reduced the price of hay \$2.00 per ton and made \$6,000 less are made here by our own people and per year to spend here on our flax sold to our own people and others, crop. A Republican vote is in favor of the party that will return our markets to American farmers that our ducts and our milk, factories, mines

markets to American farmers that our Democrat friends made free to Canadians. Remember these things when you vote.

Eveny Republican ticket this fall should win in a walk. Hundreds who tried the change two years ago are willing to vote the Republican ticket and our mills, factories, mines and quarries are all busy. If however, we purchase these same goods from a foreigner then he gets our money; his factory runs and ours remains closed; his laborers are busy and ours remains idle, the foreigner thrives, our own people starve.

Therefore the policy of the republican party is to shut out such of these goods as can be made and produced by our own people and from our own

THE WILSON BILL .- INCOME TAX.

Democrats Fear to Meet
Facts.

It will be remembered that the Democratic National Committee commenced the tariff agitation in 1892, by promising what they would do in that line if elected.

As soon as Congress assembled they introduced the Wilson Bill which is a tariff bill solely. They then kept up the discussion on this bill throughout the entire year, albill throughout the entire year, although they had a clear majority to pass it. They thus made the tariff the important issue before the people.

An income tax bill was also intro-duced. Mark Stevens in his tirade on It is very apparent that the plan adopted by the Democratic committees requires their speakers to try to call the attention of the voters to something and anything besides the real issues of the campaign. These speak

Tax bill was introduced as a separate measure. The democratic managers knew that Senator Hill, the democratthat they should yote the Democratic ticket and thus benefit themselves and the country. They claimed that if the Democratic party were given full control of Congress the financial condition of the country and of the voters would be immediately improved. They promised that their party would at once do something for the country and the people and charged that the Republican party had not done this.

This was the plan adopted and carried out by the party when Cleveland and a democratic congress were elected two years ago. ic leader in the Senate would oppose as a separate measure. If Mr. Stevens had been fair enough to not adopt the

STATE ISSUES.

clear democratic niajority in the Senate, over the republicans and populists combined.

THE REAL ISSUE.

The real issue or question now before The real issue or question now before ic administration and howling fraud the people is, Has the Democratic Party, with its large majority, kept its cans. Just as two years ago this will fall flat.

When the democrats got a majority in the state election they had not been President, Cabinet, House of Representatives, and Senate, and with the full power to make just such laws as they chose, what have they done to improve the condition of the people?

When they came into power they found the country fairly prosperous; manufactories were running on full time; laborers were employed at fair meeting the senate of the senat pelled to make the repairs and improvements that the democrats had neglected, and also to build additional buildings for the insane, and a home buildings for the insane, and a home for the feeble minded at Lapeer. These buildings cost some money but they were needed. The money was not squandered for the state has the build-ings. In addition to this Governor Rich was compelled to go to the ex-pense of prosecuting the election frauds committed during Winans' ad-ministration as well as his own. The people of Michigan remember that he people of Michigan remember that he met these frauds fearlessly, turned out of office the very men that he had ap-pointed and did his full duty in prosecuting these crimes. The voters of the state and of this county will now stand by him, notwithstanding the attacks of eighteen hundred thirty-live, every incoming of the democratic party. It democratic speakers who are using male inhabitant residing in this State reached its heighth when then they this means to draw the attention of the people away from the tariff question.

THE SILVER QUESTION. Grover Cleveland, the political god of the democratic party, has been a most stubborn enemy to silver. Under former laws silver had been deposited with the U.S. Treasurer in the form of silver bars. Instead of circulating the silver itself the bills known as silver certificates were issued and are now in circulation as money. When the silver dollar was coined it contained but about 60 cents worth of pure silver, and it circulated as 100 cents of money. the In order to make up for this difference ernment kept in the form of silver bars the value of 40 cents on the dollar. This difference was termed Seignior-age. It is of no use as money and is dead property.

THE SEIGNIORAGE BILL.

Democrats and Republicans joined in introducing a bill to coin this bar silver into money. The bill was voted for by both parties and passed both houses. Grover Cleveland then yetoed the bill and killed all silver legislation

for that term of Congress.

Mark Stevens and other democratic speakers keep silent as to these facts. They how at the republicans on the silver question but fail to show that the great Stuffed Prophet that they voted on the people is the real enemy

to silver.

The Republican party is in favor of silver as money. The great majority of the people are in favor of its use. It is not a party question. It is a national question to be determined by Congress irrespective of party.
